

I Will Worship You

Noel Robinson

Verse 1:

All I know is the way I feel
There's an emptiness inside
Trying to give of myself
Life has left me dry

Overwhelmed, torn apart
This soul of mine
Needs a resting place
Despite what I feel,
What I see and hear
I will lift up my eyes
With my voice I will say

Chorus 1:

I will worship You through the pain
When the odds are stacked against me
My heart will not fear
I will worship You, despite my shame
My soul will sing out a new song

Chorus 2:

My heart will sing out a new song of praise
Awake my soul and worship here

I will worship, I will worship
I will worship, with all my heart
I will worship, I will worship
I will worship, You are my Lord
