BUILDINGS

If you are working through the buildings section of the Eco Church survey and seeking advice on specific issues, here are some suggestions.

The [resources page of the Eco Church section of A Rocha UK website](#) contains guides on practical issues including lighting, insulation, green energy and building projects:

General resources include practical steps churches can take to reduce their carbon footprint and an introduction to the Energy Footprint Tool:

- ◆ [Net zero carbon churches](#)
- ◆ [Energy footprint tool](#)

Practical advice on specific issues, including heating and lighting, is available on the Churchcare pages of the Church of England website:

- ◆ [Heating](#)
- ◆ [Lighting](#)
- ◆ [Energy efficient measures](#)
- ◆ [Renewable energy](#)

A series of “technical webinars for non-technical people”, designed to help churches reduce their carbon footprint, is also available from the Church of England Environment Programme. You can either [book to join a live webinar](#) or catch up with a recording afterwards.
