

## Annual Review and Re-commissioning of Local Ministers

All Local Ministers should meet regularly with their incumbent or another licensed minister and complete an annual review led by the incumbent. Re-commissioning is every three years in line with the renewal of DBS and Safeguarding training and administered by the Local Ministry Team.

## Local Ministry

The Diocese of Hereford has developed a range of Local Ministry roles to enable people with all sorts of gifts to work as part of a team which offers worship, pastoral care and mission activities in church and in the wider community. These roles are supervised by the parish priest and work alongside other lay and ordained ministers.

## What is Local Ministry?

The Church of England is blessed to have a great many people voluntarily giving of their time, gifts and skills in the service of God's mission – in their daily lives, wherever they spend time for work or leisure, in their involvement with church activities and what they do in the wider community. In recognition of the commitment of those who are ministering in these ways, the Diocese of Hereford has developed a range of Local Ministry roles into which people may be commissioned at a special deanery service, led by one of our senior clergy where they will be given a Certificate of Commissioning for their role.

These roles include activities within and beyond the church community and are expected to be carried out by laypeople as part of a team working closely with their incumbent and other ministers. The discernment, training and Safeguarding requirements for these roles, as well as the expectation of regular support and review are designed to be appropriate to the ministry offered while also being in line with all lay and ordained ministry roles.
