

The Church Weddings Handbook

Out now is the *Church Weddings Handbook*, written by former Head of CofE Projects & Development, Gillian Oliver. It's a must-read for anyone involved in CofE weddings ministry and who has not been to a Weddings Project training event, or, for those who are looking to refresh their memory on the training.

Packed with insights from the Weddings Project, the book reveals seven key pastoral moments that really matter, and how simple resources used at those moments can help your church to grow.
