

Creating a QR code using your GiveALittle Account

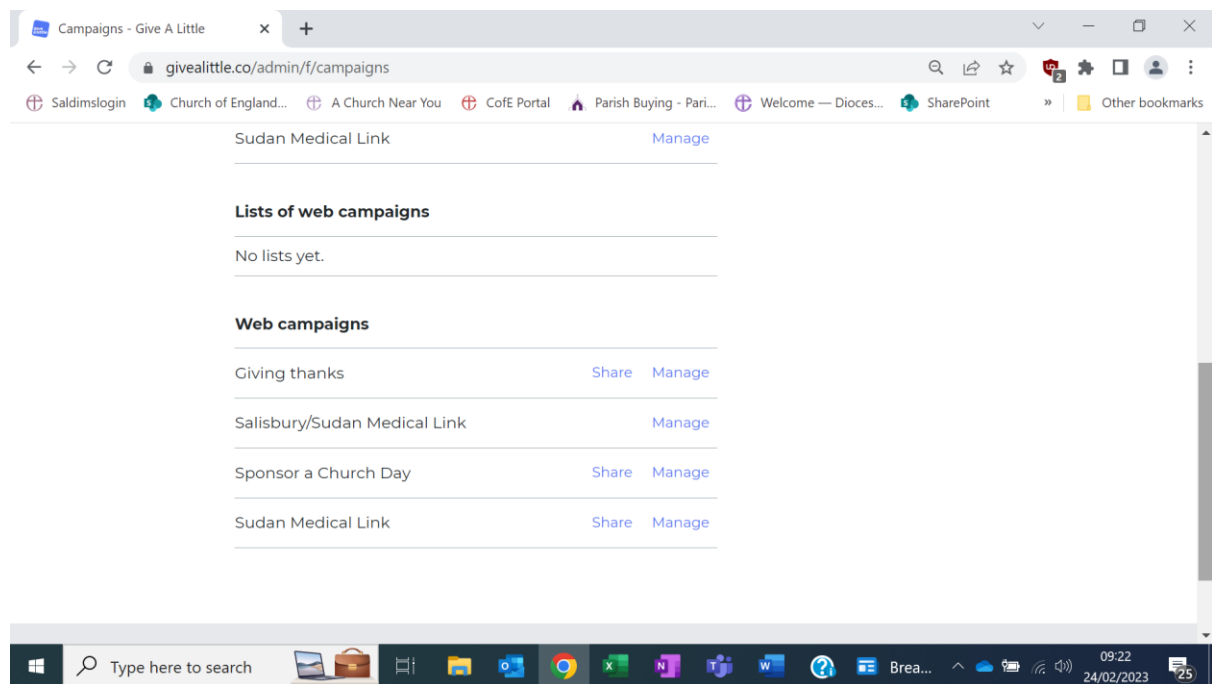

Login to GiveALittle, www.givealittle.co/login always using your SumUp login details

From your Campaigns screen:

Scroll down to Web campaigns:

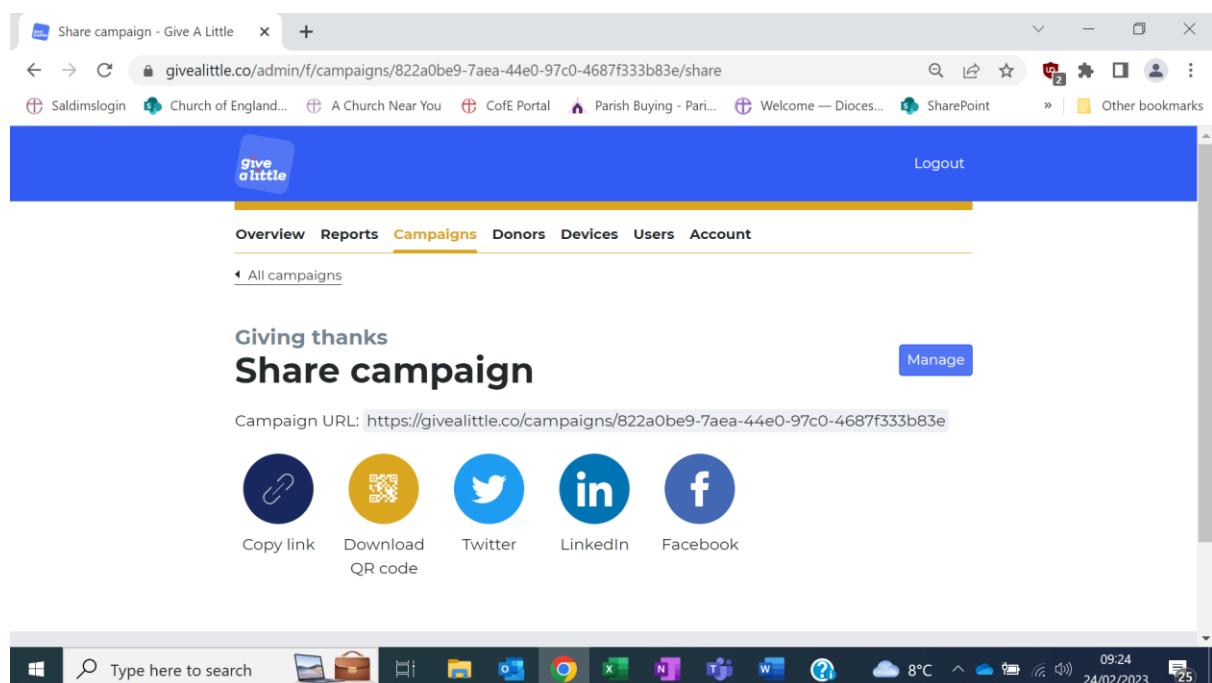

If you have no Web campaigns, you will need to create one – this is how QR codes work.

Scroll back to the top and click on **Add New** – and set one up in the usual way.

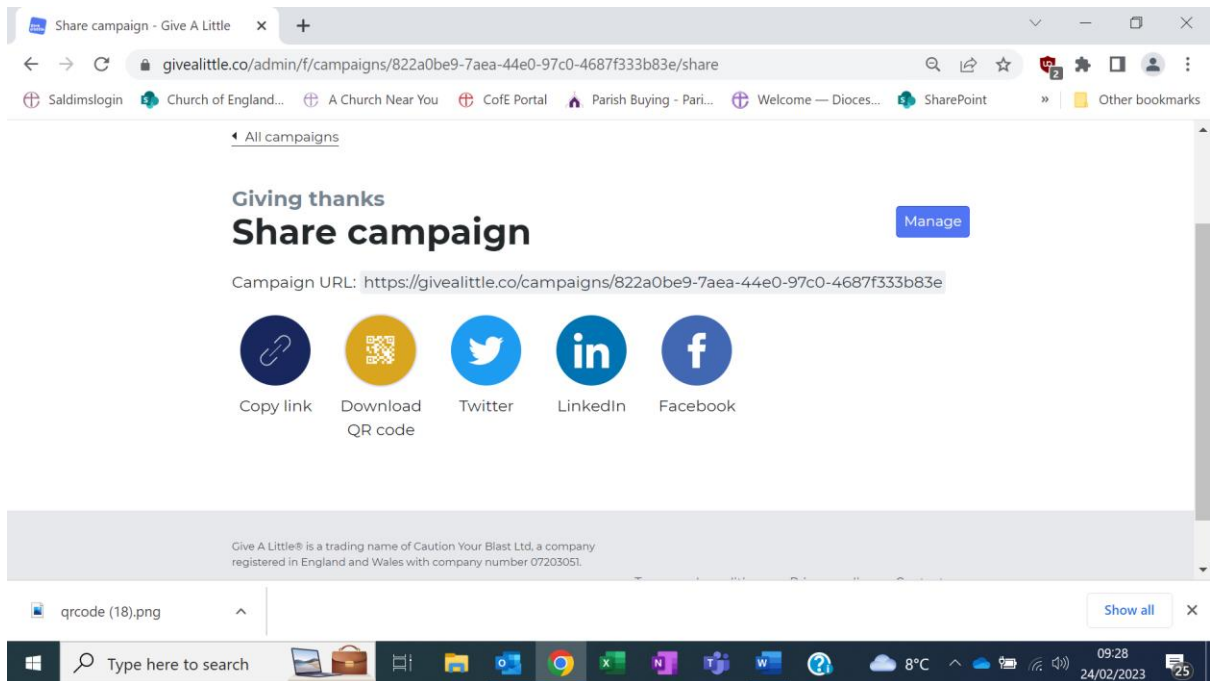

Once it is set up, come back to the Campaigns screen as above, and click **Share** rather than Manage.

You will see this screen:

Click on Download QR code – and your new QR code will pop up in a new window.

See it at the bottom left on this screen:

Click on this, and save it in a file on your computer.

(Celebrate!)
