STRATEGIC AIMS

The diocesan leadership and community is committed to the vision of a Transforming Church, Transforming Lives and has been since September 2016.

It is a vision of a diverse, growing, intergenerational church at the heart of each community, working alongside our chaplaincies and schools in living and proclaiming the Good News of God in Jesus Christ.

Following the impact of the Covid-19 pandemic, in 2021 the focus for our diocesan ministry and mission was again revised through a wide-ranging consultation and extensive prayer.

Following that second prayerful listening exercise, and looking at the National Church's focus of 'Simpler, Bolder, Humbler' we have opted for three overall related priorities that refresh, focus and evolve our original vision:

Growing Disciples

This brings together:

- Encountering God through worship, prayer, retreat and learning.
- Everyday Faith – sharing and expressing our faith in daily life and exploring vocation.
- Meeting with our Church family in all sorts of contexts for Christian encouragement, friendship and support.

Growing Diversity

This will mean for many parishes increasing the number of younger people, and growing our diversity in every way to ensure we better reflect the communities we serve. It means continuing the great work our schools are doing. It means having the courage to experiment with new ways of being Church, physically and digitally.

Growing Community

This builds on the community partnerships of our parishes, chaplaincies and schools, many of which were developed throughout the pandemic. It also draws in the critical work across our communities to care for the Earth and reduce carbon emissions.

ANNUAL REPORT

For the year ended 31 December 2023

Alongside the three priorities, are a set of 'Imagine' statements:

- Imagine a Church that is rooted in prayer, daily recognising our dependence on the God who saves, guides, strengthens and grows the Kingdom.
- Imagine a Church where people of all ages reach their full potential as disciples and leaders, cheering one another on in the adventure of following Jesus.
- Imagine a Church that worships in many ways and places, building diverse, holy, attractive communities of faith that are nourished through word and sacrament, alive in the Spirit, and accessible in every way.
- Imagine a Church at the heart of the communities we serve, reaching out to the poor and marginalised with compassion and purpose, challenging injustice, and bearing gospel fruit around the world.

To deliver these three priorities, there are eight key areas of focus with a key strategic objective.

1. **Evangelism and Discipleship:** All parishes encourage and provide opportunities to deepen discipleship and connect with unbelievers, unchurched and de-churched.
2. **Transforming Communities:** Worshipping communities are actively seeking opportunity to serve their parish community, to share the love of Jesus and to take the good news into the community.
3. **Mixed Ecology:** Every parish is implementing at least one fresh expression as a means of reaching the unbeliever, the unchurched and non-churched by the end of 2027.
4. **Online ministry:** Every parish can offer their community ways of connecting digitally with services, both streamed and recorded.
5. **Church Vocations:** To provide people with a discernment, training and formational pathway that facilitates God's call for everyone on the vocational journey into both lay and ordained service.
6. **Children & Young People:** The partnership of schools, churches and households enables children and young people to explore and develop their Christian faith and contribute to the life of their church, school, and community.
7. **Net Zero Carbon:** GDBF properties achieve carbon net zero by end 2030 (the national objective) and Church of England Schools are supported in reducing their carbon footprint.
8. **Racial Diversity:** That our cathedral, churches, schools, Church House and diocesan structures – including their leadership – reflect the racial diversity of their communities.

These objectives inform our **Parish Needs Process** (PNP) and guide the work of the team at Church House. The parish needs process focuses on a listening process; where we are seeking to listen to God, through all aspects of a parish - the church, the schools and the wider community. What this looks like will vary from parish to parish who will be each visited in turn on a deanery-by-deanery basis. After research and consultation, the parish needs process will focus on encouraging and enabling churches to make disciples who make disciples. The Mission Enabler Team, with its range of specialisms, then work with each parish to help them confirm and implement their plans.

Other ways the teams at Church House will be supporting the outworking of the vision at diocesan and parish level include:

- Our work on **Revitalisation**, seeking to create healthy, viable parish churches, whether through pastoral reorganisation or supporting parishes to develop growth plans.
- Encouraging the best possible standards of **Safeguarding** at every level.
- A recognition of the discrete work and strategy of the Diocesan Board of Education and its responsibilities for **church schools and academies**, as well as the ambition to develop closer relationship between our churches and church schools.
- The development of a **Mission Fund** to make the best use of our diocesan assets for the Kingdom.
- A **Training Plan**, ensuring that those in leadership (lay and ordained) are properly equipped and trained.

Financial Performance

Total income for the year was £14,524,000 (2022: £16,149,000). Parish share contributions were £11,569,000 (2022: £11,802,000). The collection rate fell back to 96.8% (2022: 97.3% 2021: 95.5%; 2020: 91.8%) against the amount requested casting doubt on whether it is possible to return to pre-pandemic levels (2019: 98.7%). Income from statutory fees (weddings & funerals) was £368,000 (2022: £373,000).

The GDBF budgets to break even on its general fund before any capital gains/losses. Covid-19 introduced significant additional uncertainty in financial planning. Parish share receipts recovered better than budgeted but now look to be stalling. After allowing for parish grant support allocated by the Trustees out of the prior year's surplus of £154,000 (2022: £125,000), there was a net income after transfers of £9,000 on the general fund (2022: £157,000 net income).

Grants paid to parishes relating to 2022 surplus	154	(154)	
Net income per management accounts	<u>9</u>	<u>157</u>	<u>249</u>

There was an overall net decrease in funds of £13,997,000 (2022: increase £12,285,000). Property values of tangible fixed assets fell back by £9,613,000 (2022: £11,240,000 gain). Total investment value also fell (because of falls in investment property) during the year resulting in a net deficit of £3,434,000 (2022: £346,000 deficit). There was a net actuarial gain on pension funds of £54,000 (2022: £113,000 gain).

The financial stability of the GDBF depends on the financial strength of its parishes. This applies particularly to Guildford DBF which lacks historic reserves and has the highest dependency on parish share of any Diocese. Covid-19 had a significant impact on parish finances reducing parish income on average by some 20%, particularly because of disappearing rental income but then, as we came out of the pandemic, significant reductions in church attendance. Many were able to mitigate this through cost savings, raising additional donations from Church members and/or utilising reserves. However, we have moved from having c.10% of parishes with significant financial issues to c.30%. We implemented a 'Health and viability' review of all our parishes in 2021 and work on that continues

implementing a significant programme of re-organisations including new plants and growth initiatives to address the long-term sustainability of our parishes and therefore of the GDBF.

Balance sheet position

The balance sheet position remains strong. However, while net assets at the balance sheet date totalled £213m (2022: £227m), most of that represents properties in use for ministry whose value amounted to £187m (2022: £198m). Much of the remainder of the assets shown in the balance sheet are held in restricted funds and cannot necessarily be used for the general purposes. Note 20 gives further detail of the allocation of assets to funds.

Reserves policy

Free reserves

Recognising that the Diocese is heavily reliant on parish share receipts and that the major expenditure is on the clergy and lay staff to keep the organisation in operation, the Bishop's Council has set a minimum level of general free reserves, excluding fixed assets, of two months' staff and stipend costs which for 2023 was £1.4m. The balance of reserves excluding fixed assets on the general fund at 31 December was £2.0m (2022: £2.1m).

The GDBF also has a policy of holding on deposit, or otherwise readily available within the Glebe, Pastoral Account or other suitable funds, sufficient cash over and above funds to meet normal cash-flows to be able to purchase two houses of modest value. At 31 December 2023 the GDBF had available cash balances less short-term borrowings of £2.6m (2022: £2.0m) excluding funds restricted to schools and other specific purposes.

Designated funds

The Trustees may designate unrestricted reserves to be retained for an agreed purpose where this is considered to be prudent. Such designated reserves are reviewed on an annual basis and returned to the general fund in the event that the purpose of their designation is no longer considered to be adequate justification for their retention. The balances and the intended use of each reserve are set out in notes 20 and 21. At 31 December 2023 total designated reserves were £2.3m (2022: £2.4m).

Restricted and endowment funds

As at 31 December 2023 restricted funds were £1.9m (2022: £2.6m) and endowment funds £207.0m (2022: £220.2m). The balances and purposes of these are set out in notes 19 to 21.

Grant making policy

The GDBF gives grants from funds established in the annual budget which is approved by Synod and is in line with its objectives. The main grants given in the year are set out within note 8.

Investment policy and performance

The GDBF has power to invest funds not immediately required for operational purposes in such concerns, securities or properties as it thinks fit. The GDBF follows the ethical investment policies and guidelines of the Church of England Ethical Investment Advisory Group. Non-property financial investments at 31 December 2023 had a market value of £10.4m (2022: £8.6m) of which £9.7m (2022: £7.9m) were invested within the CBF Church of England investment funds managed by CCLA Investment Management Limited. Total return performance for the CBF investment fund for 2023 was +12.6% (2022: -9.2%) slightly below CCLA's comparator weighted index return of 13.3% (2022: -10.1%). The five-year fund total return is +10.1% p.a. (comparator +7.7% p.a.).

Property investments are primarily in residential property with some glebe land within the Diocese of Guildford. It also includes £2.9m (2022 £2.9m) of disused school sites. The total market value at 31 December 2023 was £13.8m (2022: £18.9m). The Trustees have maintained a higher level of residential property investments than financial because a major potential area of expenditure for the Diocese is on residential property for delivering ministry and its residential property investments

act as a hedge against that exposure. However, it is a non-diversified, non-liquid asset subject to the risks of the UK housing market and the Trustees have adopted a policy to move more funds from residential property to financial funds over a number of years. The Board of Education, with the GDBF as Custodian Trustees, reviews how best to realise value on the disused school sites to support Diocesan schools and education activities.

PRINCIPAL RISKS AND UNCERTAINTIES

The Trustees are responsible for the identification, mitigation and management of risk. To achieve this, a register of all the risks identified is maintained and, alongside it, a management and mitigation strategy formed. This is subject to review by the Trustees on an annual basis. The key strategic risk is the slow decline in Church membership and the increasing age profile. Much of the report has detailed our strategy to respond to this. Other important risks are highlighted as follows with the associated mitigation strategies:

- **Parish share:** Covid has had a significant impact on parish finances. There is a risk that shortfalls will increase. Mitigating controls in place include active engagement with parishes and stewardship and mission support. A number of parishes will need help to re-organise so that they can be financially and missional sustainable.
- **Appointments:** In common with all Dioceses, the GDBF faces a high number of clergy retirements in the coming years with a reducing pool of potential replacements. Mitigating controls in place include strong Archdeacon engagement, clear appointment process and increased focus on vocations. The GDBF has adopted a strategic goal of increasing vocations and new clergy.
- **Safeguarding:** Safeguarding remains a high priority for the GDBF. Mitigating measures in place include an increase in resources for the safeguarding team, a 3-year training strategy and electronic Disclosure and Barring Service check process.

STRUCTURE AND GOVERNANCE

Summary Information about the structure of the Church of England

The Church of England is the established Church and HM The King is the supreme governor. It is organised into two provinces (Canterbury and York) and 42 Dioceses. Each Diocese is a see under the care of a bishop who is charged with the cure of souls of all the people within that geographical area. This charge is shared with priests within benefices and parishes which are sub-divisions of the Diocese.

The national church has a general synod comprised of ex-officio and elected representatives from each Diocese and it agrees, and lays before Parliament, measures for the governance of the church's affairs which, if agreed by Parliament, have the force of statute law. In addition to the general synod, the Archbishops' Council has a coordinating role for work authorised by the synod; the Church Commissioners manage the historic assets of the Church of England; and the Church of England Pension Board administers the pension schemes for clergy and lay workers. Within each Diocese, overall leadership lies with the Diocesan bishop, who exercises that input as Bishop within the Diocesan synod. The Diocese itself is divided into twelve deaneries, each with its own synod, and within each parish there is a parochial church council which shares with the parish priest responsibility for the mission of the church in that place, in a similar way to that in which the bishop shares responsibilities with the Diocesan synod.

Whilst each Diocese is a separate legal entity, with a clear responsibility for a specific geographical area, being part of the Church of England requires and enables each Diocese to seek support from and act in partnership with neighbouring Dioceses.

Organisational structure

The GDBF is a company limited by guarantee (No. 225289) and a registered charity (No. 248245) governed by its memorandum and articles of association.

The GDBF's principal activity is to promote, assist and advance the work of the Church of England within the Diocese of Guildford. It was established in its present form in 1927 and is successor in title to the Guildford Diocesan Trustees.

The governance and policy of the GDBF is the responsibility of the Directors, who are also members of the GDBF and Trustees for the purposes of charity law. The details of Trustees who served during the year are set out on page 20.

The Diocesan synod, the statutory governing body of the Diocese, is an elected body drawn from across the Diocese with responsibility for setting the vision and strategy of the Diocese, guided by the bishop's staff team. The synod membership is elected every three years, the last elections having been in 2021. The Synod elects 12 of the Trustees of the GDBF. Whilst the GDBF is a separate legal entity, with clear responsibilities under both company and charity law as well as a governing memorandum and articles of association, by virtue of the National Institutions Measure 1998, the GDBF is subject to the direction of the synod in all its activities unless such direction is not in accordance with the governing documents or statutory regulations.

Historical assets arising from unexpended accumulations of sale proceeds of redundant Church of England school properties are accounted for in the restricted Church Schools fund and are managed by the GDBF in consultation with the Diocesan Board of Education.

Decision making structure

Corporate priorities and the overall financial strategy for the Diocese, in its primary object to promote, assist and advance the work of the Church of England within the Diocese of Guildford, are set by the Diocesan synod, and the GDBF. The responsibility for ensuring that these priorities and strategies are delivered is delegated to the Diocesan Secretary and Bishop's staff team. The GDBF

meets once a year in general meeting to receive and approve the annual report and financial statements and to appoint the auditors. The Diocesan Synod each year receives and agrees the annual budget, prepared and approved by the Trustees. The Trustees, meeting within the context of the Bishop's Council & Standing Committee, hold eight meetings during the year to formulate and coordinate policies on mission, ministry and finance by:

- Initiating proposals for action by the Synod and advising it on matters of policy.
- Transacting business of the Synod when it is not in session subject to the directions of the Synod and in accordance with Synod Standing Orders.
- Acting as the Trustees of the GDBF.
- Planning the business of the Synod, preparing the agenda for its session, and circulating to members information about matters for discussion.
- Advising the Bishop on any matters he may refer to the Trustees.
- Initiating consideration of any restructuring of Synod Committees and Departments which may appear necessary and of the establishment of ad hoc review groups, their terms of reference and membership.
- Carrying out such other functions as the Synod delegates to it.
- Appointing members to committees and representatives to external bodies, subject to the direction of the Synod.

The Trustees are assisted in their work by the Finance and Audit Sub Committee which monitors management accounts and budget, the use of assets and investment policies and makes recommendations on areas such as loans. A programme board provides additional scrutiny of GDBF's growth and revitalisation projects and grant funding. The Guildford Diocesan Board of Education (GDBE) (as incorporated under the DBE Measure 2021) is a statutory subcommittee of the GDBF responsible for Church of England schools and academy trusts in the Diocese of Guildford.

Trustee recruitment, selection and induction

Trustees are members of the Bishop's Council & Standing Committee and are selected as set out above. Trustees are given an induction at the outset of the triennium and at other times as appropriate. They are also informed before seeking membership and at all other relevant times of the role and function of the Committee. Some staff hold the title of 'Director', but this relates to their function within the organisation and has no legal meaning within the terminology associated with the Companies Act. All Trustees are required to sign the code of practice and maintain their entry in the record of declarations of interest and loyalty.

Remuneration of key management personnel

Emoluments of higher-paid employees are determined by the Bishop of Guildford in consultation with GDBF's remuneration committee which includes the Chair of the GDBF and other members of Bishop's Council as relevant. Procedures include regular appraisals and benchmarking of remuneration.

Delegation of day-to-day delivery

The Trustees and the sub-committees which assist them in the fulfilment of their responsibilities, rely upon the Diocesan Secretary and colleagues for the delivery of the day-to-day activities of the GDBF. The Diocesan Secretary and other members of Bishop's staff team are given specific and general delegated authority to deliver the business of the GDBF in accordance with the policies framed by the Trustees.

Funds held as Custodian Trustee

The GDBF is custodian Trustee of assets held on permanent trust by virtue of the Parochial Church Councils (Powers) Measure 1956 and the Incumbents and Churchwardens (Trusts) Measure 1964 where the managing Trustees are parochial church councils and others. These assets are not aggregated in the financial statements as the GDBF does not control them, and they are segregated from the GDBF's own assets by means of a separate bank account and accounting system. Further details of financial trust assets, whose market value amounted to £7.6m (2022: £7.1m) are summarised in note 23. Where properties are held as custodian Trustee, the deeds are identified as such and held in safe custody by the GDBF's solicitor.

Funds held on behalf of schools

The Diocesan Board of Education administers on behalf of its schools government grant funds for major repair and capital projects to church schools. It administers these monies as managing agent and makes appropriate payments to contractors for work carried out. The monies do not belong to the Board of Education and as such the receipts and payments are not treated as income and expenditure in the Statement of Financial Activities. Any monies held at the balance sheet date are treated as creditors on the balance sheet. The amount included in creditors as at 31 December is £4.1m (2022: £4.0m). The income and expenditure relating to school projects not reflected in the Statement of Financial Activities amounted to £1.8m and £1.9m respectively (2022: £2.1m and £2.1m).

TRUSTEES' RESPONSIBILITIES

The Trustees are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Trustees (as Directors) to prepare financial statements for each financial year. Under that law the Trustees have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the Trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of the affairs of the GDBF and of the surplus or deficit of the GDBF for that period. In preparing these financial statements the Trustees are required to:

- Select suitable accounting policies and apply them consistently.
- Observe methods and principles in the Charities SORP.
- Make judgements and estimates that are reasonable and prudent.
- State whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements.
- Prepare the financial statements on the going concern basis unless it is inappropriate to assume that the company will continue in operation.

The Trustees are also responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the GDBF and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the GDBF and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Trustees are responsible for the maintenance and integrity of the corporate and financial information included in the GDBF's website. Legislation in England/Wales governing the preparation and dissemination of financial statements and other information included in Annual Reports may differ from legislation in other jurisdictions.

GUILDFORD DIOCESAN BOARD OF FINANCE

INDEPENDENT AUDITOR'S REPORT TO MEMBERS OF GUILDFORD DIOCESAN BOARD OF FINANCE For the year ended 31 December 2023

Opinion

We have audited the financial statements of the Guildford Diocesan Board of Finance (the 'parent charity') and its subsidiary ('the group') for the year ended 31 December 2023 which comprise the Consolidated Statement of Financial Activities, the Consolidated and Charity Balance Sheets, the Consolidated Statement of Cash Flows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the group's and the parent charity's affairs as at 31 December 2023 and of the group's income and expenditure for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's or the parent charity's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the Trustees' Annual Report, other than the financial statements and our auditor's report thereon. The trustees are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Annual Report which includes the Strategic Report and the Directors' Report prepared for the purposes of company law, for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Directors' Report included within the Annual Report has been prepared in accordance with applicable legal requirements.

GUILDFORD DIOCESAN BOARD OF FINANCE

INDEPENDENT AUDITOR'S REPORT TO MEMBERS OF GUILDFORD DIOCESAN BOARD OF FINANCE For the year ended 31 December 2023

Matters on which we are required to report by exception

In light of the knowledge and understanding of the charity and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report or the Directors' Report included within the Annual Report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate and proper accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of trustees' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of Trustees

As explained more fully in the trustees' responsibilities statement set out on page 19, the trustees (who are also the directors of the parent charity for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the group's and the parent charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charity or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud.

Based on our understanding of the charity and its sector, we considered that non-compliance with the following laws and regulations might have a material effect on the financial statements: the Charities Act 2022, tax legislation, safeguarding, pensions legislation, employment regulation, health and safety regulation, anti-bribery, corruption and fraud and anti-money laundering regulation.

To help us identify instances of non-compliance with these laws and regulations, and in identifying and assessing the risks of material misstatement in respect to non-compliance, our procedures included, but were not limited to:

- Inquiring of management and, where appropriate, those charged with governance, as to whether the charity is in compliance with laws and regulations, and discussing their policies and procedures regarding compliance with laws and regulations;
- Inspecting correspondence, if any, with relevant licensing or regulatory authorities;
- Communicating identified laws and regulations to the engagement team and remaining alert to any indications of non-compliance throughout our audit; and
- Considering the risk of acts by the charity which were contrary to applicable laws and regulations, including fraud.

We also considered those laws and regulations that have a direct effect on the preparation of the financial statements, such as The Charities Statement of Recommended Practice and the Companies Act 2006.

In addition, we evaluated the trustees' and management's incentives and opportunities for fraudulent manipulation of the financial statements, including the risk of management override of controls, and determined that the principal risks related to posting manual journal entries to manipulate financial performance, management bias through judgements and assumptions in significant accounting estimates, income recognition (which we pinpointed to the cut-off assertion), and significant one-off or unusual transactions.

GUILDFORD DIOCESAN BOARD OF FINANCE

INDEPENDENT AUDITOR'S REPORT TO MEMBERS OF GUILDFORD DIOCESAN BOARD OF FINANCE For the year ended 31 December 2023

Our audit procedures in relation to fraud included but were not limited to:

- Making enquiries of the trustees and management on whether they had knowledge of any actual, suspected or alleged fraud;
- Gaining an understanding of the internal controls established to mitigate risks related to fraud;
- Discussing amongst the engagement team the risks of fraud; and
- Addressing the risks of fraud through management override of controls by performing journal entry testing.

There are inherent limitations in the audit procedures described above and the primary responsibility for the prevention and detection of irregularities including fraud rests with management. As with any audit, there remained a risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal controls.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of the audit report

This report is made solely to the charity's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the charity's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity's members as a body for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2023

1. ACCOUNTING POLICIES

The Trustees have reviewed working capital and capital expenditure requirements and as a result, are satisfied that it is appropriate to prepare these financial statements under the historical cost convention, with the exception of freehold properties, which are included at their fair value as determined under the applicable valuation method as detailed in e), and fixed asset investments, which are included at their market value at the balance sheet date. The financial statements have been prepared in accordance with the Statement of Recommended Practice for Charities (SORP 2019), the Companies Act 2006 and applicable accounting standards (FRS102). The charitable company's own Statement of Financial Activities has not been presented as permitted by s.408 of the Companies Act 2006.

The Trustees have reviewed the 2024 budget and cash-flow forecasts to 30 June 2025 and believe that it is appropriate for these financial statements to be prepared on a going concern basis.

a) Income

All income is included in the Statement of Financial Activities (SOFA) when the GDBF is legally entitled to them as income or capital respectively, ultimate receipt is probable and the amount to be recognised can be quantified with reasonable accuracy.

- i) **Parish Share** is recognised as income in the year in which it is receivable.
- ii) **Rent** receivable is recognised as income in the period to which it relates.
- iii) **Interest and dividends** are recognised as income when receivable.
- iv) **Grants** received which are subject to pre-conditions for entitlement specified by the donor which have not been met at the year-end are included in creditors to be carried forward to the following year.
- v) **Parochial fees** are recognised as income of the year in which they are receivable.
- vi) **Donations** other than grants are recognised when receivable.
- vii) **Gains on disposal of fixed assets for the GDBF's own use** (i.e. non-investment assets) are accounted for as other income. Losses on disposal of such assets are accounted for as other expenditure.
- viii) **Stipends fund income.** The Stipends Fund Capital account is governed by the Diocesan Stipends' Fund Measure 1953, as amended, and the use of the income is restricted for clergy stipends. However, the income is fully expended within the year of receipt and the legal restrictions, therefore, are satisfied. It is on this basis that the income and the (normally much larger) related expenditure are both included in the unrestricted column of the Statement of Financial Activities for the sake of greater clarity and simplicity in financial reporting.

b) Expenditure

Expenditure is included on the accruals basis and has been classified under headings that aggregate all costs related to the Statement of Financial Activity category.

- i) **Costs of raising funds** consist of costs relating to the renting out of property and to trading services.
- ii) **Charitable expenditure** is analysed between contributions to the Archbishops' Council, expenditure on resourcing mission and ministry in the parishes of the Diocese, and expenditure on education and Church of England schools in the Diocese.
- iii) **Grants payable** are charged in the year when the offer is conveyed to the recipient, except in those cases where the offer is conditional on the recipient satisfying performance or other discretionary requirements to the satisfaction of the GDBF, such grants being recognised as expenditure when the conditions attaching are fulfilled. Grants offered subject to such conditions which have not been met at the year-end are noted as a commitment, but not accrued as expenditure.
- iv) **Support costs** consist of central management, administration and governance costs. Costs are allocated wherever possible directly to the activity to which they relate, but where such direct allocation is not possible, the remainder is allocated on an approximate staff time basis.
- v) **Pension contributions.** The GDBF's staff are members of the Church Workers Pension Fund and stipendiary clergy are members of the Church of England Funded Pensions Scheme (see note 18). The pension costs charged as expenditure represent the GDBF's contributions payable in respect of the accounting period, in accordance with FRS102.

GUILDFORD DIOCESAN BOARD OF FINANCE

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2023

c) Tangible fixed assets and depreciation

Freehold properties

Freehold property is held at revalued amounts. Properties are revalued based on changes in local prices with a five-year cycle of specific valuations. Depreciation is not provided on buildings as any provision (annual or cumulative) would not be material due to the very long expected remaining useful economic life in each case, and because their expected residual value is not materially less than their carrying value. The GDBF has a policy of regular structural inspection, repair and maintenance, which in the case of residential properties is in accordance with the Repair of Benefices Buildings Measure 1972, and properties are therefore unlikely to deteriorate or suffer from obsolescence. In addition, disposals of properties occur well before the end of their economic lives and disposal proceeds are usually not less than their carrying value. The Trustees perform annual impairment reviews in accordance with the requirements of FRS102 to ensure that the carrying value is not more than the recoverable amount.

Properties subject to value linked loans

Properties which have been bought with the assistance of value-linked loans from the Church Commissioners are stated using the value of the related loan at the balance sheet date. Each year end the respective property and loan are carried at an index linked current valuation basis.

Investment properties

Glebe properties which are held for investment purposes and rented out have been included at their fair value.

Parsonage houses

The GDBF has followed the requirements of FRS102, in its accounting treatment for benefice houses (parsonages). FRS102 requires the accounting treatment to follow the substance of arrangements rather than their strict legal form. The GDBF is formally responsible for the maintenance and repair of such properties and has some jurisdiction over their future use or potential sale if not required as a benefice house, but in the meantime legal title and the right to beneficial occupation is vested in the incumbent. The Trustees therefore consider the most suitable accounting policy is to capitalise such properties as expendable endowment assets and to carry them at their estimated current market value. Parsonage houses are included at fair value.

Assets under construction

New parsonages under construction are included within the functional fixed assets category at the value of costs incurred at the balance sheet date.

Cost values

For the purposes of the calculation of a revaluation reserve, where the actual cost is not known, the cost value is deemed to be the value at which the properties were brought into the current accounting system in 2005.

d) Other tangible fixed assets

All capital expenditure over £5,000 is capitalised and depreciated as follows. Depreciation is provided in order to write off the cost (less any ultimate disposal proceeds at prices ruling at the time of the asset's acquisition) of other fixed assets over their currently expected useful economic lives at the following initial rates:

Fixtures and fittings	15-30% per annum	straight line basis
Leasehold Property	1% - 10% per annum	straight line over the life of the lease

e) Other accounting policies

- i) **Fixed asset investments** are included in the balance sheet at market value and the gain or loss taken to the Statement of Financial Activities.
- ii) **Leases.** The GDBF has entered only into operating lease arrangements for the use of certain assets, the rental for which is charged in full as expenditure in the year to which it relates. Where rent free periods are given as part of an operating lease, the impact of this rent-free period is reflected in the Statement of Financial Activities over the life of the lease.
- iii) **Properties held for resale:** when properties are put on the market for sale they are transferred from fixed assets to current assets.

NOTES TO THE FINANCIAL STATEMENTS

f) Fund balances

Fund Balances are split between unrestricted (general and designated), restricted and endowment funds.

- **Unrestricted funds** are the GDBF's corporate funds and are freely available for any purpose within the charitable company's objects, at the discretion of the GDBF. There are two types of unrestricted funds:
 - **General funds** which the GDBF intends to use for the general purposes of the GDBF and
 - **Designated funds** set aside out of unrestricted funds by the GDBF for a purpose specified by the Trustees
- **Restricted funds** are income funds subject to conditions imposed by the donor as specific terms of trust, or else by legal measure.
- **Endowment funds** are those held on trust to be retained for the benefit of the charitable company as a capital fund. In the case of the endowment funds administered by the GDBF (Parsonage Houses and Schools), there are discretionary powers to convert capital into income and, as a result, these funds are classified as expendable endowment. Endowment funds where there is no provision for expenditure of capital are classified as permanent endowment.

"Special trusts" (as defined by the Charities Act 2022) and any other trusts where the company acts as Trustee and controls the management and use of the funds, are included in the company's own financial statements. Trusts where the GDBF acts merely as custodian Trustee with no control over the management of the funds are not included in the financial statements but are summarised in the notes to the financial statements.

g) Judgements and key sources or estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year. However, the nature of estimation means that actual outcomes could differ from those estimates. The following judgements (apart from those involving estimates) have had the most significant effect on amounts recognised in the financial statements:

- **Fair value of freehold and investment properties.** Fair market value is based on a 5-year cycle of valuations, the movement of relevant property indices and the provision for any impairments. No depreciation is charged on freehold properties.
- **Pension and other post-employment benefits.** Pension provisions relating to lay staff and clergy are valued every three years on an actuarial basis. Any shortfall in funding pensions and post-retirement benefits is recognised as a liability in the accounts. Further details can be found in note 18.

h) Financial Instruments

Financial assets measured at fair value comprise listed investments, unlisted investments, value linked loans to parishes and bank deposits. Financial assets at amortised cost comprise trade debtors, other debtors and loans to parishes. Financial liabilities measured at amortised cost comprise pension liabilities, bank loans, other creditors and amounts held for other bodies.

Investment in Subsidiary

Guildford Diocesan Board of Finance has one wholly owned subsidiary, Guildford Diocesan Services Limited (GDSL) which has a share capital of £1. The trading activities of GDSL primarily consist of the supply of building project management and training services to church schools in the Diocese. The profits of GDSL are normally wholly gift aided to the GDBF. In accordance with revised guidance issued by the Financial Reporting Council these are now accounted for when paid and not set against the year to which they relate. 18. PENSIONS

Church of England Funded Pension Scheme (Clergy)

The GDBF participates in the Church of England Funded Pensions Scheme for stipendiary clergy, a defined benefit pension scheme. This scheme is administered by the Church of England Pensions Board, which holds the assets of the schemes separately from those of the Responsible Bodies.

Each participating Responsible Body in the scheme pays contributions at a common contribution rate applied to pensionable stipends.

The scheme is considered to be a multi-employer scheme as described in Section 28 of FRS 102. This means it is not possible to attribute the Scheme's assets and liabilities to each specific Responsible Body, and this means contributions are accounted for as if the Scheme were a defined contribution scheme. The pensions costs charged to the SOFA in the year are contributions payable towards benefits and expenses accrued in that year (2023: £1,090,000; 2022: £1,440,000), plus the figures highlighted in the table below as being recognised in the SOFA, giving a total charge of £1,090,000 for 2023 (2022: £1,553,000).

A valuation of the Scheme is carried out once every three years. The most recent Scheme valuation completed was carried out at as 31 December 2021. The 2021 valuation revealed a surplus of £560m, based on assets of £2,720m and a funding target of £2,160m, assessed using the following assumptions:

- An average discount rate of 2.7% p.a.
- RPI inflation of 3.6% p.a. (and pension increases consistent with this).
- CPIH inflation in line with RPI less 0.8% pre 2030 moving to RPI with no adjustment from 2030 onwards.
- Increase in pensionable stipends in line with CPIH.
- Mortality in accordance with 90% of the S3NA_VL tables, with allowance for improvements in mortality rates in line with the CMI2020 extended model with a long-term annual rate of improvement of 1.5%, a smoothing parameter of 7 and an initial addition to mortality improvements of 0.5% p.a. and an allowance for 2020 data of 0%.

NOTES TO THE FINANCIAL STATEMENTS

18. PENSIONS (continued)

Following the 31 December 2018 valuation, a recovery plan was put in place until 31 December 2022 and the deficit recovery contributions (as a percentage of pensionable stipends) are as set out in the table below. An interim reduction to deficit contributions to 3.2% of pensionable stipends was made with effect from 1 April 2022. Following finalisation of the 31 December 2021 valuation, deficit contributions ceased with effect from 1 January 2023 since the Scheme was in surplus.

As at 31 December 2022 and 31 December 2021 the deficit recovery contributions under the recovery plan in force were as set out in the table below. For senior office holders, pensionable stipends are adjusted in the calculations by a multiple, as set out in the Scheme's rules.

% of pensionable stipends	January 2019 to December 2020	January 2021 to December 2022
Deficit repair contributions	11.9%	7.1%

Section 28.11A of FRS 102 requires agreed deficit recovery payments to be recognised as a liability. However, as there are no agreed deficit recovery payments from 1 January 2023 onwards, the balance sheet liability as at 31 December 2023 and 2022 is nil.

The movement in the balance sheet liability over 2022 and over 2023 is set out in the table below.

Liability < 1 Year

- -

¹The remaining change to the balance sheet liability comprises change in agreed deficit recovery plan and change in discount rate and assumptions between year-ends.

This liability represents the present value of the deficit contributions agreed as at the accounting date and has been valued using the following assumptions. No assumptions are needed for December 2023 and 2022 as there are no agreed deficit recovery payments going forward. No price inflation assumption was needed for December 2021 since pensionable stipends for the remainder of the recovery plan were already known.

	December 2023	December 2022	December 2021
Discount rate	n/a	n/a	0.0% pa
Price inflation	n/a	n/a	n/a
Increase to total pensionable payroll	n/a	n/a	-1.5% pa

The legal structure of the scheme is such that if another Responsible Body fails, the GDBF could become responsible for paying a share of that Responsible Body's pension liabilities.

Church Workers Pension Fund (CWPF)

The GDBF (DBS) participates in the Church Workers Pension Fund (CWPF). The Scheme is administered by the Church of England Pensions Board, which holds the assets of the schemes separately from those of the Employer and the other participating employers.

CWPF has two sections:

1. the Defined Benefits Scheme
2. the Pension Builder Scheme, which has two subsections;
 - a. a deferred annuity section known as Pension Builder Classic, and,
 - b. a cash balance section known as Pension Builder 2014.

GUILDFORD DIOCESAN BOARD OF FINANCE

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2023

18. PENSIONS (continued)

The Church Workers Pension Fund has a section known as the Defined Benefits Scheme, a deferred annuity section known as Pension Builder Classic and a cash balance section known as Pension Builder 2014.

CWPF: the Defined Benefits Scheme

GDBF participates in the Defined Benefit Scheme (“DBS”) section of CWPF for lay staff. The DBS section of the Church Workers Pension Fund provides benefits for lay staff based on final pensionable salaries. Guildford’s participation was closed to future accruals in 2014.

For funding purposes, DBS is divided into sub-pools in respect of each participating employer as well as a further sub-pool, known as the Life Risk Pool. The Life Risk Pool exists to share certain risks between employers, including those relating to mortality and post-retirement investment returns. The division of the DBS into sub-pools is notional and is for the purpose of calculating ongoing contributions. They do not alter the fact that the assets of the DBS are held as a single trust fund out of which all the benefits are to be provided. From time to time, a notional premium is transferred from employers’ sub-pools to the Life Risk Pool and all pensions and death benefits are paid from the Life Risk Pool.

The scheme is a multi-employer scheme as described in Section 28 of FRS 102. It is not possible to attribute DBS assets and liabilities to specific employers, since each employer, through the Life Risk Section, is exposed to actuarial risks associated with the current and former employees of other entities participating in DBS. This means that contributions are accounted for as if DBS were a defined contribution scheme. The pensions costs charged to the SOFA during the year are contributions payable towards benefits and expenses accrued in that year (2023: £Nil, 2022: £Nil) plus the figures in relation to the DBS deficit highlighted in the table below as being recognised in the SOFA, giving a total credit of £54,000 for 2023 (2022: £Nil).

If, following an actuarial valuation of the Life Risk Pool, there is a surplus or deficit in the pool, further transfers may be made from the Life Risk Pool to the employers’ sub-pools, or vice versa. The amounts to be transferred (and their allocation between the sub-pools) will be settled by the Church of England Pensions Board having taken advice from the Actuary.

A valuation of DBS is carried out once every three years. The most recently finalised valuation was carried out as at 31 December 2019. In this valuation, the Life Risk Section was shown to be in deficit by £7.7m and £7.7m was notionally transferred from the employers’ sub-pools to the Life Risk Section. This increased the employer contributions that would otherwise have been payable. The overall deficit in DBS was £11.3m. The next actuarial valuation is due as at 31 December 2022. The calculations for this are under way.

Following the 2019 valuation, the Employer entered into an agreement with the Church Workers Pension Fund to pay expenses of £6,700 per year. In addition, deficit payments of £92,600 per year were agreed for 0.50 years from 1 April 2022 in respect of the shortfall in the Employer sub-pool. Due to the improvements in the projected funding position of the Fund, the Church of England Pensions Board agreed that deficit contributions should cease with effect from 31 December 2022 for employers whose pools were estimated to be materially in surplus. As a result, there is no obligation recognised as a liability within the Employer’s financial statements as at 31 December 2022 and 31 December 2023. A liability has been recognised at earlier dates. During 2023, the Pensions Board identified that £54,000 of pension liability contributions had been over-claimed in previous years and this was repaid.

The movement in the provision is set out below:

	2023	2022
	£'000	£'000
Balance sheet liability as at 1 January	-	-
Contributions repaid	54	-
Interest cost*	-	-
Remaining change to the balance sheet liability*	(54)	-
Balance sheet liability as at 31 December	-	-

* Recognised in SOFA

The remaining change to the balance sheet liability comprises change in agreed deficit recovery plan and change in discount rate and assumptions between year-ends.

18. PENSIONS (continued)

This liability represents the present value of the deficit contributions agreed as at the accounting date and has been valued using the following assumptions, set by reference to the duration of the deficit recovery payments:

	December 2023	December 2022	December 2021

The legal structure of the scheme is such that if another employer fails, the GDBF could become responsible for paying a share of that employer's pension liabilities.

Pension Builder Scheme

The GDBF participates in the Pension Builder Scheme section of the CWPF for lay staff. The Pension Builder Scheme of the Church Workers Pension Fund is made up of two sections, Pension Builder Classic and Pension Builder 2014, both of which are classed as defined benefit schemes.

Pension Builder Classic provides a pension for members for payment from retirement, accumulated from contributions paid and converted into a deferred annuity during employment based on terms set and reviewed by the Church of England Pensions Board from time to time. Discretionary increases may also be added, depending on investment returns and other factors.

Pension Builder 2014 is a cash balance scheme that provides a lump sum that members use to provide benefits at retirement. Pension contributions are recorded in an account for each member. This account may have bonuses added by the Board before retirement. The bonuses depend on investment experience and other factors. There is no requirement for the Pensions Board to grant any bonuses. The account, plus any bonuses declared, is payable from members' Normal Pension Age.

There is no sub-division of assets between employers in each section of the Pension Builder Scheme.

The scheme is a multi-employer scheme as described in Section 28 of FRS 102 as it is not possible to attribute the Pension Builder Scheme's assets and liabilities to specific employers. This means that contributions are accounted for as if the Scheme were a defined contribution scheme. The pensions costs charged to the SOFA in the year are contributions payable (2023: £287,000, 2022: £212,000)

A valuation of the Pension Builder Scheme is carried out once every three years. The most recent was carried out as at 31 December 2019.

For the Pension Builder Classic section, the 2019 valuation revealed an overall deficit of £4.8m on the ongoing assumptions used. At the most recent annual review effective 1 January 2024, the Pensions Board chose to grant a discretionary bonus of 6.7% to both pensions not yet in payment and pensions in payment in respect of service prior to April 1997; and a bonus on pensions in payment in respect of post April 2006 service so that the pension increase was 5% (where usually it would be calculated based on inflation up to 2.5%). This followed improvements in the funding position over 2023. There is no requirement for deficit payments at the current time.

For the Pension Builder 2014 section, the 2019 valuation revealed a surplus of £5.5m on the ongoing assumptions used. There is no requirement for deficit payments at the current time.

The next valuation is due as at 31 December 2022. Calculations for this are currently under way.

The legal structure of the scheme is such that if another employer fails, the GDBF could become responsible for paying a share of that employer's pension liabilities.
