

What a term! We are tremendously proud of all the children who have worked so hard over the past few weeks.

First congratulations must go to the Eco Committee who have been awarded an Eco Schools Green Flag! This is a tremendous achievement and reflects the enormous impact the Eco Committee has had at Eyke. When awarding our Green Flag status, the judges highlighted “all the brilliant work you were already doing in creating a biodiverse school environment. It was great to read how the forging of strong community ties has been a by-product of embedding environmental topics into your curriculum.”

The Eco Committee with their Bug Home

We demonstrated our community ties again last week with our Summer Recital at the Britten Studio at Snape showcasing all the tremendous music at our school. The choirs, soloists and orchestra were joined by musicians from Wooden Roots and Snape to perform to families, governors, councillors and representatives from the MAT. The hour-long performance showed the exceptionally high-quality music taking place at Eyke and the dedication of all our young musicians.
