

# SPROUGHTON C of E PRIMARY SCHOOL

*Let your light shine - MATTHEW 5:16*

**Spring 2022**

A new calendar year and two new curriculum Core Concepts; Communication and Conflict. Let us share a window into learning at Sproughton C of E Primary over just one of the weeks this term...

## **Explorers Class**

The Explorers class enjoyed learning linked to Pancake Day; café role play with lemon scented play dough; reading recipe books; creating recipes; independent writing; making pancakes; weighing the ingredients and cooking both in class and during their Forest School sessions. Yum!

## **Pathfinders Class**

The Pathfinders began their new topic entitled 'Great Inventions' which will focus mainly on the first plane and the first train to be invented. To launch the topic, the children have been making Lego planes and paper aeroplanes, and have been on a virtual train ride!

## **Adventurers Class**

The Adventurers have been experimenting with light in Science. They enjoyed identifying different light sources and sorting artificial and natural light sources.

## **Navigators Class**

The Navigators kicked off their learning about conflict with a trip to the Duxford War Museum. A fantastic day was had by all.

And the whole school enjoyed celebrating books and our love of reading on...

# World Book Day 2022
