Art and Creativity Continues!

Our children have enjoyed looking at the work of Monet this half term and looking at the painting technique as well as the colours used. Other children have enjoyed using charcoal to produce beautiful Gondola drawings!

They have produced work that mirrors these techniques. Some of the results are stunning.

We are all looking forward to the opening of our new Art Therapy and Art Room for all our children to enjoy during their lessons next year!

Tudor CE Primary School.

Plant Distribution Company.

Children in Lower Key Stage 2 have set themselves up as a plant distribution company and as part of their DT work this half term have had to design and produce a box that they can send a plant through the post in safely. They will all send their plant home to themselves to test to see if their product works.

They had to draw and label their design before building it. They also had to produce and help grow plants that will be sent home.

Here is one design from Izzy. Her product is environmentally friendly and recyclable.
