

Scarecrows

Back in October it was a slightly strange drive into Wetheringsett with all the human sized scarecrows. Our pupils had great fun creating our heroes of lockdown and writing about who they thought were their heroes.

International Languages Day

The children had a lovely day celebrating languages from around the world. Brioche was enjoyed and the colours worn by the children brightened up the autumnal day.

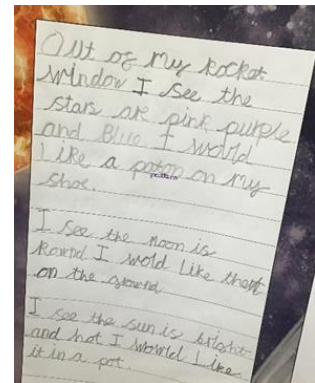

Maths and stories day

A wonderful day using two of the things we love best in school. Our day was filled with fun and excitement as pupils explored Numbers. Receptions had fun making their own I spy number book. Ks1 were learning about shapes and how to make different number bonds and KS2 were learning basic algebra and calculating unknowns.

KS1 Competitions

KS1 entered two competitions and showed great determination and perseverance. The children wrote some amazing poems for two different poetry competitions.

DT day

The children thoroughly enjoyed making puppets as part of their design technology day. The whole school got together to make a range of puppets based on the pantomime story Cinderella that they went to see at Christmas.
