

Wetheringsett children have been celebrating all their achievements this summer despite the pandemic. They have blossomed this term and we are very proud of their perseverance and achievements.

The children were delighted to have Reverend Julia back into school to help us celebrate Pentecost in EYFS and KS1.

We were very proud of Brooklyn and Lola for being shortlisted in the top 100 children out of 5000 entries in the Character creation competition.

## Playground developments

After a tyre donation we were donated lots of top soil from the help of a local farmer. We started to make flower beds with the children. We are very thankful to all the parents and local residents who have donated materials, seeds and bulbs. The children have thoroughly enjoyed developing the playground and have shown determination and respect for others ideas.

This year the children have grown, strawberries, radish, beans, peas and potatoes in their vegetable beds.

We had great fun during science week carrying out a range of different experiments. The children enjoyed learning about colour.
